

Collaborate with suppliers across your supply chain with **Supplier Enablement**

Your suppliers are all over the world. They speak different languages, work different hours, trade in different currencies and have different levels of technical capabilities—and yet all of you share the common goal of getting product to your customers quickly and profitably.

Manhattan Associates' Supplier Enablement gives you the tools you need to overcome the challenges of a global supply chain by creating an online portal between you and your suppliers. With Supplier Enablement, you can automate real-time collaboration with partners anywhere and synchronize your business processes with any supplier. All they need is a web browser.

Create an online portal with your suppliers and empower them with information and automated processes that synchronize your mutual efforts.

Automation reduces errors and saves time

Supplier Enablement drives network-wide efficiency by automating collaboration with all your trading partners. With Supplier Enablement you can:

- Negotiate purchase orders online
- Enable trading partners to generate electronic ASNs and shipping documents
- Request quality inspections to increase order accuracy and partner accountability
- Automate chargeback claims for damaged products, non-compliance and demurrage
- Reduce administrative overhead costs
- Analyze trading partner performance over time

When integrated with Manhattan's Supply Chain Event Management solution, Supplier Enablement provides global visibility into your supply chain. With a full view of your extended supply chain, you can maximize cross-dock and flow-through for direct-to-store delivery, reducing inventory, speeding orders to market and dramatically cutting transportation, storage and labor costs.

Supplier Enablement helps you extend the power of Manhattan Associates' Supply Chain Process Platform to your suppliers.

Supplier Enablement

- Enable real-time communication via web portal
- Permit online requests for quality checks
- Enable trading partners to generate electronic ASNs and shipping labels
- Print accurate, standard shipping documents
- Permit online negotiation of purchase orders

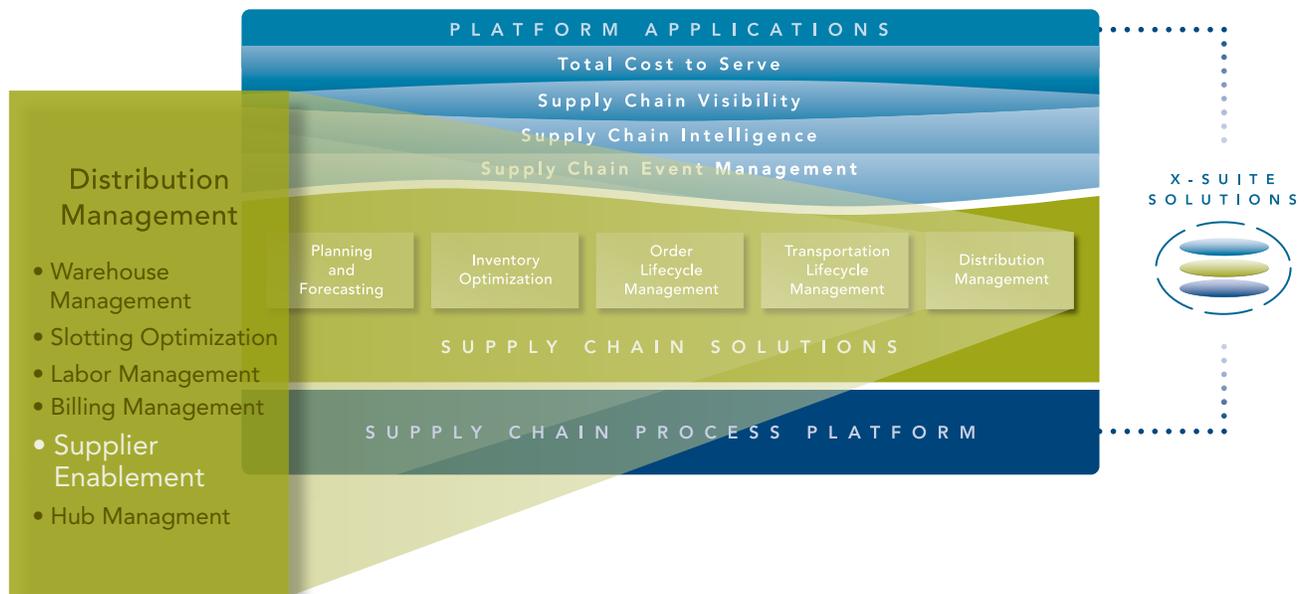

- Automate chargeback claims for damaged products, non-compliance and demurrage
- Generate cost of goods invoices and manage remittance advices
- Generate EAN/UCC-128 shipping labels
- Synchronize business processes with suppliers
- Reduce time to market, errors and costs

- Increase inventory turns
- Automate trading partner collaboration
- Make cycle times more predictable
- Increase inventory accuracy, reducing the need for safety stock
- Provide integration with Manhattan's Supply Chain Event Management solution to provide global visibility to the entire supply chain

Manhattan SCOPE[®] Distribution Management

Supply Chain Optimization...Planning through Execution

Supplier Enablement is part of Manhattan Associates' Distribution Management suite—managing complexity to yield organized optimization.

The Manhattan Difference: Supply Chain People Thinking Differently About Supply Chain

We've earned recognition as The Supply Chain People[®] for a reason: We think differently about supply chain. Manhattan's 'think-tank' is unmatched in both staff resources and collaboration with the best minds in business, industry and academia. By applying the latest advances in supply chain know-how, our Platform Thinking[™] approach is the optimal way to manage supply chain complexity and generate proven, real-world results for business. For two decades, this platform-based approach has helped companies worldwide achieve measurable efficiencies and return on investment. In fact, more than 1200 companies, representing many of the world's best-known brands, leverage Manhattan solutions to advance their supply chain leadership.

Manhattan Associates is committed to developing supply chain solutions that foster environmental stewardship.
